Dear Dr. Hauser:

I am attaching a letter the Commission received from Mr. Chris Brown. You will see that Mr. Brown makes four specific suggestions for dealing with certain problems he believes are experienced by some individuals with environmental sensitivities.

Mr. Brown's concerns are already familiar to your department so you know that Mr. Brown, and others, believe that Health and Welfare could do more to inform the public about the facts of environmental hypersensitivity and thereby dispel suggestions that their disease is largely imaginary.

I would appreciate it if you could let me know what the department has done and is further prepared to do in this matter, in particular with respect to Mr. Brown's suggestions on pages 5-6.

Yours sincerely,

Stuart Beaty
Director General
